Lights Dimmed As Newmarket Saves Power For Industry

Utilities Co-ordinator Will Meet With Town Council Friday Evening To Study Power Saving In Town

Merchants have turned off their sign and display lighting, and the town of Newmarket has turned off every fifth street light in order to effect a requested 20 percent reduction, Councillor A. D. Evans, chairman of the town water and light committee, told The Era and Express.

Mayor Dr. L. W. Dales has called a special meeting of the town council for Friday evening at 7 p.m. W. R. Harmer, Toronto, co-ordinator for the Ontario public utilities wartime workshop board, will be present, by the mayor's request, to discuss power conservation.

The town has not played any favorites in turning off the street lights. One of the street lights turned off is only 25 yards from the front door of the chairman, Mr. Evans. Another, on Main St., is the light closest to the store of a member of his committee, Councillor J. L. Spillette. Another is in front of the store of an ex-mayor, J. E. Nesbitt, General Motors dealer.

A cursory survey of the effect of turning off every fifth light gives the impression that Main St. is still comparatively too well lighted in view of the fact that

there are only two shopping nights, compared with other streets. The top of Main St. hill, for instance, from The Era and Express office to the mayor's medical office, is unnecessarily well lighted, it would seem, although there is always the danger of automobile accidents at this point due to the speed with which motorists go over this crest. Parts of Main St. that are only residential, it would seem, could be reduced to lighting a little more comparable to other residential streets.

Dr. Dales' idea in having an expert discuss light conservation with the council is that it would be possible to turn off all the lights in town at certain times and not help the province at all, for the saving might not be made at a time of provincial peak demand. The result might merely be to inconvenience Newmarket people while leaving the town's power peak and power bill at the same figure. Domestic and industrial saving, if done indiscriminately, Dr. Dales states, might result in a serious loss of revenue to the town, with no saving in the town's power bill from the Ontario Hydro-Electric.

EAST AND WEST, NORTH AND SOUTH MEET AT PICKERING COLLEGE

Pickering College playing fields and halls are humming with activity. No less than 132 students are at the school this year compared with an ordinary attendance of about 100.

The students come from as far east as St. John, New Brunswick, and as far west as Vancouver, B.C. Twenty-five students come from Britain and two from Haiti.

There are new staff members too: H. H. Mosey, on the staff of Rummymede Collegiate, Toronto, last year; G. A. Dobson, at Forest Hill school last year; F. W. Bunt, principal of Smithville continuation school last year; Donald McLean, for several years active in adult education and a this-year graduate of the Ontario College of Education; John Scott, principal of Cookstown continuation school last year, who is senior master of the preparatory department; Ed. Armstrong, Toronto normal school last year.

Mr. Mosey, Mr. Bunt and Mr. McLean have their homes in the town.

In addition, a number of senior students have returned to the school as junior assistants: Ghent Davis, Newmarket; Dan Sherry, Asbestos, P.Q.; Douglas Kilgour, Barrie; James Frosst, Montreal; Desmond Partridge, Beaverton. They will have special duties with the younger boys.

Spectacular Dieppe Film To Be Shown at Strand

The Strand theatre presents "The Battle of Dieppe" on Friday and Saturday. This battle, one of the most outstanding in the present world war, in which Canadian played such an outstanding part, was filmed under fire and was led by gallant Canadian commandos. These films are among the most spectacular to come out of this war. American Rangers, along with British and French commandos, also took part in this assault on Nazi-held territory on the French coast.

N.H.S. Students Return From War Work To Scholarship

REGISTRATION IS EQUAL TO LAST YEAR'S, WILL STUDY DEFENCE

Three hundred and two students registered at Newmarket high school on Tuesday, with a few still at Niagara picking fruit and expected back early in October. The registration will be about 310, not much different from last year. Many students were engaged in war work during the summer.

There are 200 students in the lower school, although the first year of 100 is not as large as last year. There are a few less students in grades 11 and 12 this year.

Principal J. B. Bastedo has arranged a nine-period day to accommodate the new defence course in grades 10, 11, 12 and 13. This course includes civilian protection, first-aid, signalling, map-reading, navigation, internal combustion engine, and for grade 10 boys small arms training.

By the request of the provincial department, there will be no inter-school sports this year, Mr. Bastedo said. Sports will be intra-mural. It is hoped to carry on the Red Cross work. The outside of the school has been painted, part of the interior has been re-decorated and seats and desks have been renovated. A. N. Belgin, chairman of the high school board, stated.

CITY WOMAN FINED \$2,000 FOR HOARDING

N. L. MATHEWS ACTS IN WARTIME PROSECUTION FOR OVER-BUYING

"\$2,000 OR 60 DAYS"

Heaviest fines ever imposed in Canada for hoarding were levied in Toronto police court last Thursday when Mrs. Annie Dworkin, Wells Hill Rd., was found guilty on three charges of hoarding groceries. Magistrate J. D. McNish fined Mrs. Dworkin \$1,000 and costs or 60 days on one count and \$500 and costs or 60 days on each of the other two. Costs amounted to \$7.50.

The \$1,000 fine was imposed on a charge of hoarding groceries to a value of \$105. The second charge was that of hoarding \$39 worth of groceries, for which she was fined \$500. The third charge, which also drew a \$500 fine, was one of hoarding 200 pounds of sugar. The prosecution was conducted by N. L. Mathews, K.C. George Bagwell acted for the defence.

Both Mrs. Dworkin and her husband, Edward, were originally charged but the charges against Mr. Dworkin were dismissed.

In finding Mrs. Dworkin guilty and imposing the fines, Magistrate McNish said that as a well-educated business woman, active in the affairs of the community, she could not help but be aware of wartime conditions. Referring to evidence that she had always bought in large quantities in the past, Magistrate McNish said it was no excuse for her doing so under present conditions.

Noting that the accused had 12 pounds of coffee on hand on Jan. 26, Magistrate McNish said: "It has been found necessary to ration coffee owing to the exigencies of the war. The defendant at that time purchased a supply of coffee sufficient to last her three months. Tea purchased on the basis of the present ration would be sufficient for one year. I find that the defendant had acquired 156 tins of soup which, if she had used one tin each day, would last her at least five months.

The laundry soap that was sent out amounted to a supply for six months—using one bar a day. I have come to the conclusion that she did acquire these goods and that they were an amount beyond what was reasonably required for her use and the use of her household.

"She purchased \$105 worth of groceries. That she did not need these for her immediate use was indicated by the fact that she did not accept delivery for six or eight weeks. The largest individual purchase she made in 1940 was \$40 odd and the largest individual purchase made in 1941 was \$26.

"The purpose of the regulations is to prevent shortages and to maintain a sufficient supply for everyone over the whole period of the war. It is quite possible that a person might purchase the same total amount of groceries in the year but the offence is buying them at one time and thus removing them from the market. Such things cause shortage and if this sort of thing is permitted to continue during a period of shortage of the necessities of life we may get to the stage where those persons with money would get food and the rest of the people without money would not! I find the defendant guilty of the charges laid and I say that I have not had much hesitancy in reaching that conclusion.

"I am also affected by the fact that the report of the investigators showed that most of these goods were there on May 11 but in addition there were in her possession some six automobile tire tubes and six new tires which, of course, has nothing to do with these charges but it does reflect the mental attitude of the defendant in seeing that she would have sufficient of everything necessary no matter what other people did without."

MORE THAN JUSTICE

The beloved singer, Ernestine Schumann-Heink, harbored no illusions regarding her appearance. She knew that she was not beauty, and was not ashamed to admit it.

An artist once importuned her to sit for a portrait, but the great singer offered various excuses and seemed decidedly reluctant to grant his request. "Madam," he promised, "I will guarantee to do you justice." "Sir," she replied with a smile, "it is not justice I seek at your hand, but mercy."

Newmarket Soldier, Reported Missing, Is Prisoner In Germany

Citizens Rejoice To Hear Of Safety Of Youthful Canadian, Missing Following Recent Dieppe Raid

Word has been received by Chas. E. McDonald, Newmarket, that his son, L-Cpl. Allen Garvin McDonald, who was reported missing following the Dieppe raid, is now a prisoner of war in Germany.

Mr. McDonald received a telegram on Saturday morning from Ottawa saying that word had been received from the International Red Cross in Geneva that his son was a prisoner in Germany.

Mr. McDonald had seen a picture in a Toronto newspaper on Thursday evening of a group of Canadians taken prisoner at Dieppe, and one of the men he thought sure was his son. The telegram on Saturday confirmed his belief and he went down to the city to see the original photograph on Saturday morning.

Mr. McDonald is planning to send food parcels to his son through the Red Cross.

Following the report that his son was missing, Mr. McDonald received the following letter from Gilford from the wife of a comrade of Allen's: "He was a great chum of my husband, Harold Wright, who was fortunate enough to arrive back in England safely. The paper said he was knocked out at the sea wall by a bomb. Shrapnel pierced his helmet, inflicting a superficial wound. He came to, and being all alone, struck to a boat on the beach, to find it over-crowded. So he and Sgt. Legate took off shoes and uniforms and swam for four and a half hours until Hal became exhausted and Legate towed him to a nearby boat.

"But how fortunate he was

ALLEN McDONALD

I was spared a lot of serious worrying.

"I believe Allen and Hal were on the Isle of Wight this summer, in the same hut with a Glenn Schweger who is also missing. Easter Sunday Hal and Allen went to church service together in Eastbourne and both stayed for sacrament. They felt it was a mutual affair—we'd be part-taking of it here.

"In the meantime, if hoping can help, I'm sure more cheerful news will soon come forth."

FRED PORTER, TAILOR, WAR VETERAN, DIES

Well-known merchant tailor, Fred Porter, who came to Newmarket from Bradford 22 years ago, died at York county hospital today after several years of poor health.

In earlier years he was an ardent bowler. He was one of the first members of the Newmarket branch of the British-Israel World Federation. He is a veteran of the Great War, although he didn't serve overseas. He leaves a widow, formerly Florrie Walker.

The service will be held in Roadhouse and Rose funeral chapel on Saturday afternoon.

Hillsdale Dairy Will Move To New Premises

Wm. Wright, who has retired from the shoe business, because of ill health, has sold his premises three doors south of the post office to W. J. McCappin, proprietor of Hillsdale Dairy. Mr. McCappin plans to use the former shoe store for over-the-counter dairy business and to erect a modern dairy building at the back. He will continue to rent the barber-shop.

Mr. Wright is understood to have been asking \$5,000 for the premises.

Three Guns Make Over Seven Tons Of Salvage

Newmarket said goodbye to two mortars from the South African war, weighing three tons each, and to one German gun from the Great War weighing less than two tons. They formerly decorated the waterworks lawn.

Arthur Vernon trucked the three guns to Toronto. Each gun made a load. They will be salvaged for war production purposes.

PRODUCTION IS 40 PERCENT FOR WAR

The government demand that footwear factories should produce 70 percent for military purposes, to take care of increases in the number of men in uniform, will no doubt mean at least a temporary increase in the Davis Leather Co.'s production for military purposes.

The Davis Leather Co.'s production is now 40 percent for government purposes, and any increase will mean a decrease in civilian production until the extra military need has been supplied. It was learned from President Aubrey Davis.

PRODUCTION CLUB MEMBER

The North American Life announces that Wyatt L. Moorthy has qualified for a prominent position in the company's leading Producers' Club for 1942.

In addition to his fine production record, Mr. Moorthy has a good "conservation" record, which indicates that he has been active in giving service to the company's policyholders.

PRE-SCHOOL EDUCATION

"It has been estimated that a child learns more, whether for good or ill, in the first three years of life than in all the rest of his life put together, and that by the time he starts to school at six or seven years of age, a large part of his education, in the wide sense of the term, has been completed."

The characteristic ailments of childhood (with special incidence in the two to five years of age period), namely, diseased tonsils, enlarged adenoids, malnutrition, defects of vision and hearing, dental caries, etc., often go unrecognized and definitely handicap a large percentage of children, and may leave their mark for life."

These two quotations from an article by Dr. Ruth S. Arndt (daughter of the former Toronto city controller, the late F. S. Spence) in "Public Health," a South African publication, summarize the case for nursery schools. Several South African cities, like Toronto, have nursery schools. The nursery school can be just a crèche where the working parents leave their child while they go to their jobs or it can be a highly developed institution which not only promotes the physical, moral and mental health of the children but also conducts lectures and courses for the parents in child training.

TO SPREE OR NOT TO SPREE

The individual must settle many a difficult to-spend-or-not-to-spend question these days, and he or she is not assisted to a wise decision by advertisements which urge the purchase of a personal set of scales for the bathroom or which describe the simple little outfit costing about \$25, including purse to match, which the smart young thing working in a war industry will buy to be ready for her weekend "date." Advertising should not be misused, for it can make people do foolish things as well as wise things.

The public body has even more difficult to-spend-or-not-to-spend questions to settle. Toronto's board of education divided almost evenly the other day on whether or not to give a dinner for a provincial school trustees' association. The majority favored giving the dinner.

The dominion government recently had to decide whether or not to spend \$800,000 on a high-power short-wave broadcasting station at Sackville, New Brunswick, and another \$500,000 annually for upkeep. We hope that members of the cabinet divided and that the proposal was carried by the same slim majority that marked the Toronto board of education dinner expenditure.

War Services Minister Thorson, in making the announcement, said that the government had asked the opinion of the wartime information board on the proposal. We didn't think the new board had been in existence long enough to have held its first meeting, let alone pass an opinion on an expenditure of this magnitude, but the board, according to Mr. Thorson, said the new station would prove a "useful instrument in the dissemination of information about the war effort of the Canadian people."

We would say that an expenditure involving the licking of 3,200,000 war savings stamps ought to be useful, even essential.

A FAIR QUESTION

A C.C.F. supporter asked the editor the other day how the attitude of this newspaper is affected by the fact that a Liberal cabinet minister is interested in the ownership. It was a fair question and the answer should be of interest to a wider circle.

The answer is that the editor, as editor of the Newmarket Era, always wrote what he thought, and that as editor of The Newmarket Era and Express he is still doing so. It was an explicit part of the amalgamation agreement, and quoted in the first issue of the new newspaper, that the publisher and editor should conduct the newspaper as an independent newspaper. It was also the suggestion of the Hon. Mr. Mulock that he should not act himself as a director of the company because, he said, in the course of things, an independent newspaper would be criticizing the government and that would put him in an improper position.

Since the amalgamation took place almost four months ago, Col. Mulock has made no suggestion, either directly or indirectly, as to how the newspaper should or should not be conducted. And those who have read the newspaper cannot regard it as partisan or devoted to the promotion of any one political party. The C.C.F. has been organizing in the riding and has received generous publicity. The Conservative party has not been active, but The Era and Express was fortunate in having, during the parliamentary term, and will have again, the weekly comments on parliament of Gordon Graydon, M.P. for Peel, and chief Conservative organizer.

The Liberal party may have fared least well, but there has been frequent discussion of the two Liberal chieftains, Hepburn (mostly adverse, we admit) and King (sometimes favorable, sometimes unfavorable), and their administrations.

The support accorded the new newspaper by subscribers and single copy purchasers indicates that the public too is inclined to regard The Era and Express as independent. The press run, 2,800 copies, is not much short of the combined press run of this newspaper's two predecessors, and it would look as though it would not drop much below that figure even when all the circulation (a term which excludes free copies to advertisers, exchanges, correspondents, un-

sold copies, etc.) is put on a paid-in-advance basis.

The Era and Express tries to be independent, to treat all fairly in the news columns according to news values, and to treat all fairly in the editorial columns according to the editor's "lights." The editor is prejudiced and biased, just like other people, but he tries to do his own thinking, or choose his own thinking from the ideas and writings of others, and not to think entirely in accordance with any one party or group or sect. He invites others, particularly those who see the flaws and faults in the ideas he presents, to round out with their opinions and ideas, in written form, this community newspaper and forum.

We have a not unnatural hope that the owners of The Newmarket Era and Express will have some return on their investment, although it would appear that that is not likely to happen until after the war. In the meantime, they are trying to provide northern York county with an ever better weekly newspaper and they do so in a spirit of public service, knowing that they have the co-operation and good will, and active assistance, of all public-spirited citizens.

WHAT OTHERS THINK

THE TOWN AS A PLACE TO LIVE

(Contributed by R. J. Deachman)

The town weekly is coming into its own. It has made a great improvement in the last few years. This much is crystal clear to anyone who knows these publications and the men who make them.

Time was, I am sorry to say, when the town paper was a more or less shabby sheet. Men drifted into the business through impulse rather than understanding. A business man who missed the boat, a teacher who quarrelled with the trustees, a preacher who, for one reason or another, fell out of the pulpit—all these and more, sought joy and expression in the publishing business. They knew little of printing, less of editing. They were almost wholly ignorant of prices, costs and collections. Things done by these men made angels weep and caused competitors to indulge in an orgy of sub-vocal swearing.

In the old days some got by. Then a new age developed. Improved transportation brought the city daily closer. The radio became a source of news. The weekly had to be revamped. It was compelled to define its own field, occupy it more closely, apply business methods—survive or quit. The competitive system is harsh. It was never meant for weaklings but those who survived became strong—fitted by effort, conditioned for survival, made capable of progress under difficulties.

The town weekly covers its own territory. Any good town and the area around it provides a news field which is the natural monopoly of the local paper. With this, of course, goes the job work of the area. Some towns have become stagnant in the last few years but I hold a prevailing idea that the towns of Canada will stage a comeback. The farmer too will come into his own and get a larger share of the national income. These events will help the town paper, enlarge its field, make it stronger than it ever was before.

There is no reason why these desirable events should not happen within the next few years. The town has many advantages. Costs of living are less—costs of production, in many industries, are lower than in the cities. There is on the average a higher level of human happiness in the town than in the city. The revival of the town may be one of the notable events of the latter half of this century.

Here then is the task for the Canadian Weekly Newspapers Association. It should do everything possible to hasten the coming of that day. It is no light and superficial task. It requires work. It demands a careful investigation of the economic aspects of the situation. From the national point of view, in the interest of Canada, it is a case which should be presented and the editors of town papers are quite capable of doing the job—doing it well.

(Mr. Deachman is a former M.P. for Huron county and a weekly newspaper publisher.)

THE CASE FOR RADIO STATION

(From the Ottawa Journal)

It is some years since Mr. L. W. Brockington recommended construction and operation by the dominion of a short-wave broadcasting station. Recently the parliamentary committee on broadcasting reviewed Mr. Brockington's conclusions, went into the subject thoroughly, recommended strongly that short-wave transmitting facilities be provided with the least possible delay.

This recommendation has been accepted by the government at long last, and a broadcasting plant is to be built at Sackville, N.B. The initial cost is estimated at \$200,000, and annual operating expenses at \$500,000—short-wave naturally does not adapt itself to commercial exploitation. The station will be operated by the Canadian Broadcasting Corporation.

The objectives of this station, and justification for the expenditure, are well set out in the official statement:

"To establish close contact with Canadian troops abroad:

"To supply the United Kingdom, the other countries of the Commonwealth, and foreign countries with accurate and timely information about Canada and the national war effort;

"To provide the essential means of self-defence and counter-attack against the continuous flow

of German and Italian short-wave propaganda directed against Canada, or transmitted to foreign countries in order to minimize the Canadian war effort. This might be done positively by our own short-wave programs, or negatively, by jamming harmful incoming programs from enemy or enemy-occupied countries;

"To provide a second line of defence if the

enemy were able to put the B.B.C. stations out of operation; and

"To strengthen the resistance within the occupied countries of Europe."

We would say an excellent case for this station has been made out, and certainly nobody will accuse the government of acting hastily.

FAIRY TALE WORLD

By Isabel Inglis Colville

I can imagine someone saying, "What a thing to compare our chaotic world to—a fairy tale!"

But if you remember your fairy tales, you will also remember that fairy tales—except the endings—were never peaceful stories where everything ran on oiled wheels; they were mostly struggles against overwhelming odds and the one thing that redeemed them from morbidness was the way right invariably triumphed over might.

The world to me, today, is like Cinderella—the wicked stepmother, Hitler; the two cruel stepsisters, Mussolini and Tojo; Cinderella, all the oppressed countries; the fairy godmother, the United Nations; and the prince with his glass slipper, democracy.

Cinderella was oppressed—she was deprived of proper food and clothing, she was cut off from friends and all that made life worth while, but deep in her heart there lived the longing to be free—to have the right to choose her own life and share in the life of those about her, on equal terms. The stepmother and sisters used her for their own ends—she slaved for them, did all the dirty work, with no hope of reward. And just so Hitler, Mussolini and Japan are enslaving those who once knew freedom—knew its joys and privileges—its right to worship and speak, to work and play.

Now all those peoples know is to work under the threat of the Gestapo. But in every fairy tale there is a fairy godmother, or jinn or genie, who at exactly the right moment, when everything looks blackest, comes forward to bring justice to the oppressors and freedom to the oppressed.

Joseph, as prime minister to Egypt, acted in that beneficent character to his brothers who had sold him into Egypt. The servative convention will be held shortly, to consider program and leadership.

wicked witch in Snow White was frustrated in her evil designs and came to a terrible end, while love brought Snow White into her own. I wonder if we really appreciate the fact that we of the United Nations are fairy godmothers? We are sending forth the prince, in the form of our armed forces, to rescue the enslaved ones and to fit them with the wonderful glass slipper of democracy, and yet, are we doing all we can to arm the prince and to make the new world a more wonderful place than the old for the freed peoples.

Do we, each day, try to make OURSELVES more worthy of the days to come when "man to man, the world o'er, shall brothers be?"

It all—peace or the other thing—comes back to ourselves, doesn't it. Like a stone cast into the water, whose ripples widen out, so our personalities, however humble, must affect those near us, and just as in the fairy tales the godmothers are always beneficent so must we try to be.

I suppose there are a million things we could do to help win the war and free the oppressed but we just haven't thought of them—we're too busy with the problems nearest—of adjusting ourselves to new conditions and learning new ways.

If we of the United Nations want to be real fairy godmothers we will use imagination and if we picture what those we wish to benefit are undergoing, we will not slacken our efforts to hasten the day when freedom shall once more ring her triumphant peal over a peaceful world.

Of one thing we can be sure—as in fairy tales, so in our world, right WILL conquer might!

The British column moving from Majunga has smashed 18 miles through sporadic Vichy resistance to Mahitsy, 19 miles from Tananarive, capital of the strategically vital island.

The dominion bureau of statistics reported on Tuesday that the cost of living for Canadian farm families increased 1.3 percent between April and August, 1942. In the same period the index of wholesale prices of farm products went up 2.1 percent.

Despite thick rain clouds that dogged them over the channel, R.A.F. Boston bombers, flying so low they passed between the twin smokestacks of one power station target, raided the industrial areas of Lille and Lens in north France and an iron works at Ijmuiden in Holland.

U.S. naval and marine corps dive bombers damaged a Japanese cruiser northwest of Guadalcanal in the Solomon Islands on Sunday.

American planes, based in India, carried out extensive raids on Burma and Japanese positions in Yunnan province of China in the past week, bombing barracks, towns, rail lines, factories and river shipping.

Preparations are under way to do a more extensive job of checking up on men who fail to report for compulsory military service. As men become scarcer in the age groups liable for training, the number of men who fail to answer a call to report increases, an official of their national war services department said this week. This is largely due to the fact that men have enlisted without reporting to the regional war services board.

It is believed that the German commander-in-chief, on the Stalingrad and southeastern fronts, General Field Marshal Fedor von Bock, has been recalled.

Rt. Hon. Arthur Meighen has announced that a national Con-

servative convention will be held shortly, to consider program and leadership.

It's as easy as that to make your telephone talks briefer

Please think before you telephone: "Do I have to make this call?"

And whenever you are on the telephone, ask yourself: "Am I keeping this talk as brief as I can?"

Yes, it will be hard at first to limit your telephone time to a fraction of what it used to be. But the war is chang-

ing a lot of habits . . . and the high-speed tempo of war business has put a heavy load on telephone equipment which cannot be further expanded.

The situation is sure to grow more urgent. You can help by confining yourself to essential calls . . . and by making them brief.

ARE YOU ABLE TO FORGET YOUR EYES?

... Many people take vision for granted until glare, harsh light, and too long concentration bring eye-discomfort. When your eyes are tired... strained... efficiency is lowered. Fatigue, headaches, and nervous irritation interfere with work or play.

To bring ease and comfort to glare-sensitive eyes, modern optical science has developed **Tone-Lite** lenses, scientifically designed to absorb unwanted brilliance and stop harmful glare. Delicately flesh-toned, **Tone-Lite** lenses harmonize with the complexion, are inconspicuous and most attractive.

Decide now to have your eyes examined. If your eyes are sensitive to excess glare, **Tone-Lite** lenses may be prescribed in all single-vision or bi-focal forms.

When you do have your eyes examined, ask about **Correctal Tone-Lite** lenses.

REFRESHING SHOWERS

By Captain Fred Brightwell
Salvation Army
This week among the many people I met were three who stand uppermost in my mind. Let me describe them to you.

The first, a middle aged woman who, when I asked her if she would be interested in a Christian paper (The War Cry) said that there was enough war and trouble without reading about any more. However, when I tried to explain that this paper was one of peace and would help much in her difficulty, she still insisted she had enough.

"Have you taken your trouble to God?" I asked. "No," was the reply. "Do you read your Bible?" "Sometimes," again she replied. "Why do you not ask God to help you, do you not believe in Him?" She very firmly stated that she did not know in whom to believe.

After talking for some time she admitted that what was needed today was the old-fashioned faith and trust in the Living God.

The next person I spoke to was an aged woman. How different she seemed. She did not possess very much of this world's goods, and still had to care for herself, although she was very weak and frail—but what a testimony of cheerfulness she had for her Master, Jesus Christ, and the peace He alone can give. "Yes," she said, "I am all alone and yet I am content and happy because I know God is watching over me. I have been a Christian for over 50 years now." Ah! that was her secret of strength. She had known Him for over 50 years. "Why a difference—she had had difficulty and sickness, trouble and had lost loved ones and yet, because she knew God, there was a peace in her heart that 'the world cannot'... neither can it take away." Hallelujah!

The third person I wish to mention was a young man who came to me. How different, too, was he. I spoke to him concerning the deeper things of life. Did he know God? "No." Did he not think He could do something with his life? "No." What was his ambition in life? "Nothing." Was he happy? "As happy as I want to be." Was he helping those with whom he associated and were they helping him? "No." What did he do for a living? "Practically nothing." Did he not realize that unless he awoke from his "sleep" he would perish? "I suppose so—I don't care." Oh, what an attitude to take toward God—and for such a young man. I was really troubled to think one could be so little concerned with spiritual things, which, if allowed to come into his life would be such a boon to him. What a pity. He did not realize they could change him and make him a "new creature in Christ Jesus."

My dear friends, here I have tried to show you three different types of people who perhaps live next door to you or under your own roof. Which one are you? Are you perplexed and do not know in whom to trust and believe or are you ready-hearted and unwilling to respond to the voice of God when you know he is speaking to you.

I do hope and pray that you are like the dear aged lady who knew where to place her trust and confidence, and because of that, saved herself much unhappiness and worry in spite of troubles that had come her way. Let me close with the beautiful words of this song: "Bring it to Jesus—thy burden of grief, The guilt of the past and thy record of shame, Naught but His mercy can bring thee relief, Naught but His power can restore thee again, Bring Him thy sorrow, bring Him thy tears, Bring Him thy heartaches, bring Him thy fears, Oh! tell Him plainly how thou dost feel! Ever believing—Jesus can heal!"

Lord Balfour was guest of honor at a banquet where many speeches were made. When it came time for him to deliver his own remarks, the hour was late and he was exceedingly weary. "I have been asked to give an address," he said, "and I shall beg the privilege of giving mine. It is No. 40, Charlton Garden, and, with your kind permission, I will go there at once."

HERE'S A PICTURE TO CHEER YOU UP

E. AND E. CLASSIFIEDS

serve the people of Newmarket, Aurora, Sutton and northern York county.

Well over 60

of these little messengers were set in motion last week, bringing buyer and seller, tenant and landlord, loser and finder together.

Rates are so low

to reach over 2,000 homes in the trading area that you can't afford to do nothing about the white elephant eating its head off in the attic, the cellar, or the implement-shed.

A 25-word classified advertisement costs only 50 cents (or 25 cents if paid within six days of publication—and most people do pay within this time) for one week, 65 cents (or 40 cents if paid within six days) for two weeks, and 75 cents (or 50 cents if paid within six days).

Sale notices in the "Sale Register" column are only \$1 for the first week, and 75 cents for each succeeding week, and sale lists are published for 40 cents column inch. These reasonable rates mean that every sale can be widely advertised at a low cost. E. and E. advertising will bring many extra people to the sale and add hundreds of extra dollars to the sale total.

ERA and EXPRESS

P.S.—"E. and E." means economical and excellent.

Leslie Howard, the dapper and handsome star of numerous film hits, returns to the screen in one of his most exciting roles to date as the hero of the action-filled melodrama, "Mister V," which is scheduled for its first showing at the Strand theatre on Monday.

This new picture combines melodrama with romance and comedy and is set in the Europe of today. The story, briefly told, highlights the bold adventures of Professor Horatio Smith, a teacher of archaeology at Cambridge, who, single-handed, stages and engineers daring escapes of anti-Nazis from inside Germany. Wanted by the head of the Gestapo at any price, this mysterious liberator, nevertheless, dares to go to Berlin and to attend an elaborate reception at the British Embassy, where he comes face to face with the Gestapo chief.

How he manages to keep his identity secret and to accomplish his daring-devil business provides "Mister V" with scenes of continuous suspense and breath-taking drama. The climax of the story unfolds with terrific impact on the Swiss border, when the hero at long last is finally caught by the Gestapo and once again outwits them.

The cast supporting Mr. Howard includes Mary Morris, the flashing brunette who won acclaim in "Prison Without Bars" and "The Thief of Bagdad," Francis Sullivan, Hugh McDermott, A. E. Matthews. A delightful combination of dancing and music by Eleanor Powell and Tommy Dorsey's orchestra, with comedy by Red Skelton, "Ship Ahoy," opens Wednesday at the Strand theatre.

Miss Powell offers five completely new dance routines. In one she actually taps out a Morse code message, to notify her friends that enemy agents are operating. There is little attempt at serious plotting, the whole arrangement being happily dedicated to mirth.

Red Skelton is, as usual, inimitable in his comedy role as the savior of Miss Powell, Virginia O'Brien and Bert Lahr add to the amusement. She sings a comedy number while Lahr carols "I'll Take Talulah."

Tommy Dorsey and his starring aggregation play a variety of melodies, including "Moonlight Bay," "Last Call for Love," "I'm Getting Sentimental Over You," "Hawaiian War Chant" and "I'll Take Talulah."

In the course of her contrasting dance numbers, Miss Powell taps a number titled La Torria, in unique imitation of a bullfighter in action. There is another novelty in rhythm with Buddy Rich, the crack trap drummer of the Dorsey band, and also an unusually rhythmic soft shoe routine.

IS IN B. C.

Rfn. Percy L. Deavitt is with the Canadian army and is stationed in British Columbia. He is the son of Mr. and Mrs. Wm. Deavitt, Sharon, and is well known in Newmarket, where he was employed before enlisting.

TO THE EDITOR

Editor, The Era and Express:
For certain reasons, known best to myself, and to inform the public, as to our church, what we believe and teach, I am writing this to your paper.

We believe in the virgin birth of Christ, that He was conceived by the Holy Ghost, born of the virgin, was very God and very man. We also believe that through Him alone, and not by any good works, can we be saved. We believe the Bible is the inspired word of God, and that He and His word have not changed, to suit the times, or please the people. We believe in salvation, from sin, here and now, through faith in Christ. Also, in sanctification, a second work of grace, whereby the believer is cleansed from all inward pollution. We believe in separation from the world, in spirit, in conversation, and in attire.

We believe in worshipping God in spirit, and in truth, and we put no premium on mere forms. We believe in the witness of the spirit, to our hearts, that we are now free from sin through the blood of Christ.

We believe it is our privilege to be kept from committing willful sin, here and now. Also, we believe in future rewards and punishment, in the possibility of final apostasy, in the resurrection of the body, and life after death. The scriptures teach all these things.

We will gladly join in worship with any or all who are like-minded, but to try to worship with those who do not believe as we, we count it useless, for how can two walk together, except they are agreed. To all, we say, God bless you. Come thou, with us and we will do these good.

In Memoriam

Groves—In memory of Harold Groves, who passed away Sept. 27, 1923.

Three little words—forget me not. They don't seem much but mean a lot. Just a memory fond and true. To show, dear Harold, we think of you.

Sadly missed by mother, wife and family.

Knott—In loving memory of a dear wife and mother, Mrs. J. W. Knott, who passed away Sept. 19, 1932.

Her life was a beautiful memory. Her death is a silent grief. She sleeps in God's beautiful garden.

In the sunshine of perfect peace. We leave her in God's keeping.

The rough road safely over. And our dear one we loved so well. Has only gone before.

Ever remembered by family.

Maines—In loving memory of a dear husband and father, John Maines who passed away Sept. 25, 1933.

Three years have passed since that sad day. When one we loved was called away. God took him home, it was His will.

Within our hearts he liveth still. Ever remembered by his wife and family.

Women's Institute Has Fine War Work Record

Queen Elizabeth is honorary president of the World Wide Federation of Women's Institutes, the second largest organization in the world. Newmarket has an active branch in this federation, having been organized 37 years ago.

Mrs. E. N. Penrose is a charter member of the branch and still a very active member.

"For Home and Country" has always been the Institutes' motto. The various branches throughout the world study from many sources, ways and means of improving home and living conditions, nutrition, health, economics, up-to-date management and family care.

The Ontario government provides many services for the branch Institutes, including various types of handicraft and a speakers' service, which is a vast source of information to members, offered by well-informed instructors. Each year there is in each district an "officers' rally," where parliamentary procedure is taught.

Annual reports of the year's accomplishments are sent to the Parliament buildings, Toronto, to the department of agriculture, Women's Institutes branch. These reports are recorded and placed on file.

The Newmarket branch has a charter from the federal government under the War Charities Act and raises between \$300 and \$400 each year for war work.

This fund is spent mainly on Newmarket boys who are overseas on active service.

The Institute and the Veterans are joint senders of the boxes which leave Newmarket each month for the boys over there.

Into these boxes the Institute places all the knitted goods as required, such as socks, mittens, scarves, helmets and sweaters. The Newmarket branch buys and pays for all the wool used. The members and their friends do all the knitting for these boxes.

Layettees and quilts have been sent, through the Red Shield, to British war victims, and in addition, this year, the members of the war work committee have pledged to fill ten ditty bags for the Navy League at a cost of between five and six dollars each.

VANDORF
FIFTY YEARS OF YOUTH
ACTIVITY ARE MARKED

Present and former members of Wesley Young People's Union and the Epworth League met to celebrate the golden jubilee of organized young people's work at Wesley church, Vandorf, on Sunday.

Through 50 years of good and bad times this work has been carried on without adjournment. The Epworth League of Christian Endeavor was organized at Wesley within three years of the founding of the first society in Canada at Barrie. Miss Minnie Marsh, now of Vancouver, was the first president of the society.

The morning service was conducted by Rev. Roy Hicks of Aurora, and at this service two beautiful new windows were unveiled in the church. The window on the west side was erected in memory of the late William George Morley by the choir of the church and his family. The east window was erected by the young people as a permanent commemoration of their golden jubilee.

The theme of the morning service might be said to have been "Light." Mr. Hicks in a splendid address brought forward the thought "that looking out of the north, south, west, or east windows of our lives has a great bearing on our character. If one sits gazing too long through the south window one may become soft and indolent, while through the north window of life one sees only the stormy and bleak side of things. The west window facing the setting sun symbolizes the past, filled with its memories but the east gives us of life's new day, the future, and better things which it is possible for us to build into it."

In a short dedication address, Rev. G. W. Lynd, former pastor of the church, gave a concise history of the young people's organization and referred to the sterling qualities of the late Mr. Morley, which had made him loved and respected by all who had been associated with him.

Mr. Lynd invited Mrs. Morley to unveil the west window to the memory of her husband, after which he unveiled the east on behalf of the Young People's Union.

The choir's two morning anthems were "O Worship the King," and "Increase Thy Light." The evening service was conducted by Rev. G. W. Lynd. Fifty golden candles were arranged on seven ivory and gold candelabra, one tall standard shed a warm light on the banking of red, gold, and purple autumn flowers and the evening sunlight streamed into the chancel through the beautiful new windows.

Another tall standard at the east of the altar table stood with its taper unlighted. During the service Mr. Lynd lighted a small candle from the tall lighted taper which symbolized the fiftieth year, and going to the altar laid it to Howard Dike, three times president of the society, who in turn passed it to Miss Mabel Carr, the present president.

The candle was then passed to Master Billy Kingdom, who carried it to the tall unlighted taper, lighting it and so carrying the flame from past to present and future.

Mr. Lynd's address dealt with some of the present day problems, man's inability to put the blessings of modern science to constructive uses, and the part youth had in shaping the new world of the future. Miss Hilda Paton, president of the Young People's Union of the Toronto centre north presbytery, and Miss Mabel Carr, Wesley president, brought greetings from the presbytery and from the Wesley society to the congregation.

The choir number during the service was "Sun of My Soul," by Turner, and a mixed quartet sang "The King of Love My Shepherd Is."

The jubilee celebration continued on Monday evening, when Rev. Archer Wallace of Toronto gave his illustrated lecture, "Britain Today," to a well filled church. The slides gave many glimpses of the beauties of nature and architecture which go to make up Britain and brought back to some memories of home or of days and months spent there on holiday or in war-time.

TAX RATE WAS 21
MILLS 40 YEARS AGO

Forty years ago this month Aurora town fathers struck the municipal tax rate at 21 mills. Today the rate is 40 mills, but there are paved streets, sewage disposal, an improved water system, fire protection of the best type, new high school, garbage collection, and countless other improvements, so the increase seems reasonable.

WHITCHURCH REEVE HAS
Dilemma To Resolve

Reeve Earl Toole of Whitchurch township is in a bit of a difficulty until Nov. 1.

Reeve of Whitchurch and warden of York county, he has been named by York county council as a member of the Toronto and York roads commission, at a salary of \$1,500 a year plus mileage allowance, instead of the former \$7 per meeting and mileage.

He cannot accept the new position without resigning as reeve and presumably also as warden, without making himself liable to unseating proceedings. On the other hand, he does not want to put the municipality to the expense of an election.

He must therefore wait until Nov. 1 to hand in his resignation to Whitchurch and to accept his new appointment. After Nov. 1, it is said, the municipal council will have the power to name a new reeve, without an election, to carry on until the regular elections at the end of the year.

MOVING ON JURY

BRAKE FAILURE CAUSES
THREE-CAR CRASH

A serious accident was miraculously averted at the corner of Yonge and Mosley Sts. on Tuesday evening.

Lee Ging Yoo, Sundry Chinese, with three passengers, was approaching Yonge St. when his brakes failed to work and the car proceeded onto Yonge St., striking an automobile driven by Jessie W. Young, Collingwood, and careening off it into the side of a truck driven by D. Melnyczek, Bradford.

All the passengers escaped uninjured as none of the vehicles involved were travelling fast. Lee Ging Yoo's car was almost wrecked, while the other automobiles, although damaged, were able to continue on their way. Chief Constable Fisher Dunham investigated.

Queen's Yorks Plan Night
In Open And Day Battle

Next weekend will be a busy time for C company of the 2nd battalion, Queen's York Rangers, and for the entire battalion, too, as they will be engaged in a picked squad under the command of Capt. Earl Bales and Lieut. J. L. R. Bell will journey to Schomberg fair on Saturday afternoon to give a display of bayonet fighting, anti-aircraft drill, the new battle order, Bren and Lewis guns, anti-gas warfare, as well as rifle drill and marching. There are nearly 40 men in the squad, including the entire King township membership of the company. A recruiting booth will be set up and recruits will be sought for the reserve army.

Leaving Toronto around 3.30 p.m. Saturday the entire battalion of the county unit will proceed to Schomberg for a weekend of manoeuvres. C company will return from Schomberg to join their comrades and it is expected that the entire battalion will parade through town to the Aurora armory.

Open-air kitchens will be set up at the town park and the men will cook their own meals. After supper the battalion will break up into small groups and will occupy picked areas in the hills two miles south of Aurora. Inter-communication will be maintained between all parts and patrol training will be given the men. Weather being favorable, the parties will bivouac in the outdoors. If the weather is inclement, the battalion will return to the armory and the town park.

The men will rise early Sunday morning, cook their own breakfasts and depart for a sham battle in the Lake Wilcox area, making full use of all the fieldcraft and weapon training they received last month at Niagara camp. The noon meal will be prepared in the open, too, and the scheme will last until about 4 p.m.

The entire scheme is under the direction of Lieut.-Col. J. H. Bennett, V.D., the officer commanding, and Lieut. William Hunt, the training officer. It is probably the largest military manoeuvres ever held in North York. Officers and men are hoping the weather-man will be kindly. Battle-dress and full pack will be the orders for the weekend.

"Rin" Brown, known as "Little Reginald" with Richmond Hill, was one of the hardest hitters ever to appear in York-Simcoe softball, is on active service now with the dental corps and was lately stationed at Newmarket camp, where he played hardball. Brown, a former Queen's York reservist, was a member of that memorable team which swept everything before them at Niagara camp last year. Practically the whole outfit are active now.

"Army" Armstrong, the well-known hockey referee, has won his 11th tennis title at Oshawa. An undertaker by profession, Armstrong gallops over the tennis courts in the summer and the ice surfaces in the winter, which after all is pretty good training for a mortician. Armstrong is not a world beater at tennis but, just the same, to win the Oshawa city title that many times is no small potatoes.

Heard one the other day about the service police who entered a tournament where a prize was provided for the fellow who had never won one. When he received his trophy he was called upon for a speech and to impress his fellow members said: "I think the idea of awarding a prize to a person that has never won one before is swell. I think the idea is a good one and it should be carried further. I intend to celebrate and stand drinks for all those who have never had one before." You guessed it, chum, the name started with "Mac."

Orange blossoms go to a couple of our old friends this week. Bob Benville left the ranks of the benefactors for the post-war firebirds with Dorothy Kennedy of Toronto, a former Aurora girl, and Frank Clubine last week signed a life contract with Theresa Stephenson of Aurora. Benville, who is with the navy, expects to be transferred east, while Clubine, who is with the air force firefighters, is stationed at Jarvis. Bob was a boxer, cyclist, lacrosse and football player besides a sports scrivener. Hankus-Pankus played hockey and softball with Aurora.

Dan Willson, the leech of the Newmarket dominion champions of '32 and who also starred in minor pro in the ice game and at lacrosse for Aurora, Bradford and Orillia and could play hardball, softball and golf equally well, as we predicted a few weeks ago has joined the R.C.A.F. and is now stationed at Toronto. Don't be surprised if you see Donny playing for the airmen in their Allan Cup quest.

Our information is that there will be an R.C.A.F. team entered in every hockey branch, which will mean one at Toronto, Ottawa, Montreal, Moncton, Halifax, Winnipeg and other provincial big centres across Canada.

The camp baseball team passed gracefully out of the hardball picture last week before the onslaught of Joe ("Ceegars") Myers and his Morse A.C., whose snappy play won them much favorable comment in Newmarket. The Morse boys are now playing off with Collingwood, who have the reputation of being "Smokey" Smith hurling for them. Morse used Salzman and "Lefty" Allen in the box, while Richardson pitched both games for the Camp. While we are not certain, we believe he is a Meaford lad and pitched hardball at Borden this year. He was plenty good, too, but his support, particularly in the Newmarket game, faltered at critical stages.

Many thought it strange that "Lefty" Newbold, the Newmarket team's ace all season, was not used. Morse have not particularly liked southpaw tossing all season. Unless Newbold's flipper was sore, as we have heard off the record, he might have been the man to do the job. While taking no credit away from those who played in the soldier line-up it seems fair to say the team was hardly as strong as that which was playing in mid-season.

Murphy, a Toronto boy who played softball formerly with C.G.E., filled Tarzan Pirie's catching pad fairly well but lacked Pirie's drive. With Jack Gorrie moved, Bern Gantner was moved from the mound to second base. Harry Conrie, who pitched most of the season, filled the shortstop position held formerly by Jack "Arky" Vaughan. Mitchell moved from third to second and Exelby moved in from the outfield. Not bad but not as good as the inner quartet which had worked so long together.

Woods, a Perth Square product, while trying hard, was not as good as Marchildon or McGregor, who had held outfield berths previously.

Al. Wysinski, former semi-pro, was the stand-out all season and Wes Niles generally held up his end, but Exelby really rounded out a swell outfield. The season provided plenty of fun for the boys and this year's team was, if anything, better than the team that won the Newmarket town league last season. With increased draft calls and judging by the increasing enlistments it would seem fairly logical to assume that the Byers-Basket circuit has probably had its last season for the duration, although the Camp will probably keep sports alive in canal-town.

Charles W. Smith had a fair record at the recent Thorncliffe meet, as he rode five winners, to tie for second place. His win on Kengar, another Giddings horse, marks the start of another great little horse, perhaps to be as good as "Ten to Ace." The meet is scheduled for some heavy action in the next few weeks. Charlie's second name is "Walker" and not "Whipplewraith," as some of the racing writers have it. When you watch the riders, initials are important now, for G. L. Smith, a leading jockey of the western provinces, has invaded the east and is riding well, so well, in fact, that he headed all riders at Thorncliffe and leads all in Canada.

Saw Bill Thomson on Saturday night and "Sweet William" who last year had his best N.H.L. scoring record, expects again to be with Chicago Blackhawks now that professional hockey has been given the green light by Ottawa authorities. Chicago are definitely

in and have probably suffered less from army calls than most teams. Bill has summured well and looks the picture of health with little excess weight. This season will be his eleventh season in the monied ranks and his fourth with the Chicago team. According to the record books the Newmarket boy was 32 on March 5.

Herbie Cain, who has been playing baseball with his factory mates, Davis Leather and hanging a golf ball, is in good shape as the season draws nigh and presumably will again be with the Boston Bruins. At least, Art Ross is figuring heavily on Herb, for this season. The Bruins, we think, have lost more players to the armed forces this season than any other N.H.L. club but will be in there as usual. Herb is younger than Thoms, we believe, by a year. He will enter his tenth season of professional competition.

Enlistments have been fairly heavy this year from the ranks of pro hockey players and we sometimes think too much criticism has been levelled at the number of pro hockey players on active service. We must remember that they are only a small percentage of the active hockey players in Canada, and certainly it would be a bold person who would say that hockey players in general have not made a magnificent contribution to the defence of democracy. We would go further and say there is a greater percentage of athletes on service than non-athletes.

Professional hockey is, after all, while not requiring a university education, a profession now for some hundreds of persons. They have spent years of training to reach the top of their chosen vocation. Hard slugging years in the amateur ranks and tough competition year after year. Other professions, after the war is over, will as a rule see the men in them who go to war able to come back ready to practise law, medicine, dentistry, engineering or other arts but the span of years of active competition in a hockey player's life is decidedly brief.

Few, indeed, are the professional hockey players who will be able to resume their present or past status after the war.

In any case, the government has said that professional hockey, aside from revenue returns, is making a big contribution to the relaxation of a nation at war and the selective service board has given the O.K. to the boys. Pro hockey this season will be different from any other season but it will carry on with youths, married men, veteran performers and non-military category men.

North York hockey at this stage might get a bit of attention. Gasoline rationing has to all intents and purposes, aside from enlistments, killed O.H.A. hockey in all but the bigger centres. Sutton Greenshirts have lost Gibney, Burkholder, Smith and others to the armed services. Markham and Aurora juniors, while having teams on paper, will not be able to transport. The military camp will have both gasoline and players and presumably will be back in the O.H.A. series again. Stan Smith will take over Newmarket rink again while the municipality at Aurora will carry the burden of the arena in that centre.

Best hope for both rinks and for an inter-town hockey league, and some juvenile competition. For an intermediate grouping Newmarket could send in Davis Leather, the Camp, and either the Specialty or the Town. Aurora could count on Sisman's, Queen's Yorks and either Collis Leather or the Town. The travelling would be easy. There appear to be enough players around for a six or at least four-team league and both rinks would find the public would support them with nothing else in view. Juvenile competition might find Aurora, Newmarket, Pickering College, St. Andrew's and perhaps Richmond Hill included in a strong circuit. It might just be possible to get O.H.A. and Juvenile byes for the leagues, with the winners going into provincial playdowns late in the season. It's a thought that those interested in both Aurora and Newmarket, might consider seriously the next few weeks.

Mice or men? With the people yelling about various revival articles we saw the other day merits reproducing: "Our ancestors didn't have sugar until the 13th century, coal until the 14th, bread and butter the 15th, potatoes and tobacco the 16th, soap the 18th, gas, matches and electricity the 19th, canned goods and cars the 20th. What are we a bunch of sissies?" Nuff said about it, gang?

Larry O'Connor, a sergeant now at Newmarket and moving up in the army world, won a feature race on the big sports program at Varsity stadium. Larry spotted a small handicap and wearing spiked shoes ran his specialty, the hurdle race, while his opponents, wearing running shoes but numbering the best sprinters at the meet in their ranks, ran a straight race, and yet O'Connor managed to beat them. We hear Larry is headed for an officer's course soon. The Newmarket relay team won a feature race from the best in the armed forces, and other Camp men scored points. Camp Harkness has had a remarkable season on the elder path, thanks to O'Connor and the sports officers.

Pickpockets, invaded Mimico stadium last Friday night when the Combines and St. Kitt's had a play-off match and did some plain and fancy wallet snatching. One North York sportsman we know went to the game and, favoring the Combines, backed them for a ten spot. The Combines lost and when he went to pay off he found his pocket had been neatly emptied. Insult was added to injury when he had to call on the cheque book to settle the wager.

Rugby prides off the lid this week and looking around we find our sports writer, Etobicoke hockey manager and Argos backfielder, coaching the Oakwood Indians. Stukins is expecting great things from Jimmy Cummins, former Aurora hockey captain, who played

YOUNG COUPLE ARE HONORED AT SHOWER

The Y.P.U. held a successful corn roast last Wednesday evening at the home of the president, Miss Ethel Rae.

Mrs. E. Geer and her cousin, Mr. Thos. Webster of Nashville, spent several days last week visiting relatives at Kincardine.

nice football in the O.R.F.U. last year. Jimmy can boot a ball with the best in the business today.

Gordon Brennan, who has been nicknamed "Chink" lately, another former Aurora junior, is seeking a secondary defence spot.

It's McElroy, who played hockey for Etobicoke, junior last year, is a candidate for a backfield berth with Balmy Beach.

Pepper Martin, the old defence basher and former St. Andrew's rugby captain, will clinch a place with Queen's University who have entered a team again in the Kingston City league. Martin reported back to Queen's for his final year this year.

Bill MacDonald, reeve of New Toronto and former warden of York, has for many years been deemed a versatile fellow by those who know him. Last week, for instance, he made that famous Kingmaker's speech at county council over the road commissioners' resignations, and at the same time in his debut as a trainer of racehorses he scored two wins in his first two starts. With the first fall race meet over, he is battling 500. Mr. MacDonald last year purchased some nags and installed Trainer W. Young to look after them. When results didn't suit him, despite the fact his only experience with horses had been as a bettor or when he drove a grocery wagon in Humber Bay, Bill naively fired Young, sought and obtained a trainer's license and straightaway comes through with a Meritwell performance. A few years back, when everybody said it couldn't be done, he had the legislature create a lawyer by a special bill despite the opposition of the Law Society. Getting a racing trainer's license was, however, a whole lot easier. His career on the track will be watched with interest and he has some fair ponies in his possession too.

Wilfred White, one of the greatest fielding outfielders ever to play in the York-Simcoe league, is back from overseas. Wilf, looks well but is suffering from a stomach ailment derived from a combination of food and tank bouncing. He says the boys are working too hard to have much time for sports any organized way. He managed to see several big English soccer matches and says the crowds were really large and apparently fearless of any bombing attempt. The ball passing was a revelation. Shorty Richardson he reported as being fine but thwarted mostly in his search for Copenhagen snuff, so Wilf is planning to send him some.

Home, too, from overseas is "Shorty" Turan, one of the best all-around athletes ever turned out in Newmarket. "Shorty," too, is suffering from a stomach ailment but otherwise looks O.K.

Sunday sports have drawn a few inquiries to this corner regarding the acts governing it. The research shows two old laws on the statute books. One is the dominion law which, summed up, says that no game shall be played on the Sabbath for gain or reward. There is a clause, however, which permits the provincial governments to change the terms. So it would seem that the Quebec government at some time or other has legalized Sunday sport, racing being excepted along with wrestling and prize-fighting.

Ontario has an act which, summarized, says noisy games may not be played. Just how old it is may be guessed from the fact that such one-time sports as "skittles and rackets" are mentioned. All games that are organized sport would definitely be taboo and it might be read strictly to mean even more than organized games. Golfers claim that their sport is played on a private course and there is no noise. The morality, it would seem, doesn't matter, the argument being that noise interferes with the rights of others. The law has been often cited and so is full force and effect.

Public opinion is the force that will alone change it. No particular objection seems as a whole to be voiced against sand-lot games, the real objection being that to permit them is but the thin edge of the wedge and Sunday racing, hockey and theatre would follow. We are not expressing personal opinions, merely telling you what the situation actually is. We do know Sunday ball has been played regularly at Kingston, Windsor and summer resorts and there haven't been many complaints. The law wasn't enforced in those centres because public opinion was against it. It all depends, we guess, where you live and who lives next to the ball park.

BRIDE WEARS

MOTHER'S VEIL

A wedding of wide interest
was solemnized in Keswick
United church on Saturday, Sept.
19, uniting in marriage Dorothy
Marguerite White, only daughter
of Mr. and Mrs. George W.
White, and John Ritchie Cowan,
son of Mr. James C. Cowan and
the late Mrs. Cowan, Blythes-
wood.

Rev. Gordon Lapp performed
the ceremony. Miss Lillian Hol-
born, cousin of the bride, sang,
and Mrs. M. Tremayne played
the wedding music. Pink and
white gladioli, against a back-
ground of evergreens, decorated
the church.

Given in marriage by her
father, the bride was charming
in a gown of ivory satin, with
inserts of rose point lace, fash-
ioned with basque waistline, the
full skirt extending into a train.
She wore her mother's veil of
full-length silk net, gathered to
a halo head-dress, and carried a
wedding-ring bouquet of white
gladioli and pink roses. A string
of pearls, the gift of the groom,
was her only ornament.

The matron of honor, Mrs.
Henry Sharpe of Peterboro,
chose pink point d'esprit over
taffeta, with sweetheart neckline
and full skirt. Miss Marion Dal-
ton of Windsor, the bridesmaid,
wore blue double net over
taffeta with appliques of taffeta.
Both wore matching flower
head-dresses with shoulder-
length veils, and carried arm
bouquets of Johanna Hill and
Butterfly roses. Groomsman was
Alex. J. McTaggart of London.
William Kerr, King, cousin of
the bride, and George Whaley,
Olinda, were the ushers.

At the reception at Hollywood
Lodge the bride's mother re-
ceived in a gown of bishop's

purple with black accessories,
and corsage of Johanna Hill
roses. She was assisted by Mrs.
J. Cowan, in teal blue, and Mrs.
W. Dalton, aunt of the groom, in
French blue, both wearing cor-
sages of Pink Delight roses and
gladioli.

For a trip through northern
Ontario, the bride donned a suit
of mid-blue Harris tweed, with
garnet accessories, and a corsage
of Butterfly roses. On their re-
turn, Mr. and Mrs. Cowan will
reside in Harrow, where the
groom is on the staff of the
Dominion Experimental Station.

The bride is a graduate of
Macdonald Institute, Guelph, and
is former home-economics coach
for eastern Ontario. The groom
is a graduate of the Ontario
Agricultural College, Guelph,
and the University of Minnesota.

from the white?" he asked.

"Oh," replied the landlord,

"you soon get to know them by
their shape."

SAY CHRISTIANS HAVE TURNED BACKS ON GOD

Adjutant Milton Piffrey of the Salvation Army canteen at the Newmarket military camp had charge of the evening service at the Salvation Army citadel on Sunday. He had as his topic, "The Prodigal Son."

"People have become tired of Christian living," he said. "The greater majority of our Christian friends have turned their backs on God and have no room for Him."

"The Prodigal Son found himself destitute after his wanderings and so the world today finds itself the same way."

"No new order can be brought about in our own strength and if it does it will be a house of cards."

"It is a Christian's work to make known to the world that God is a God of love and ready to forgive sin, giving hope in this life and the hereafter," he concluded.

L.T.B. ASKS SUPPORT, WILL TAG SEPT. 26

The L.T.B. Lodge, Newmarket, is holding its annual tag day Sept. 26. The net proceeds will be used for the maintenance of the True Blue and Orange Home at Richmond Hill.

At the present time there are 74 boys and 47 girls in the home. Twenty-six of the "old boys" are overseas or in the services and one casualty has been reported.

No doubt there are many more with the forces that there is no record of as it is a big task to keep track of all the children who grow up in the home and go out into the world to make a place for themselves as fine citizens.

The home has its own troop of Scouts and Cubs, although they are without leaders now as both leaders have been called to the colors.

QUEENSVILLE Nation-Wide Communion Is Planned For Oct. 4

The Queensville Women's Institute will not hold its regular meeting on Sept. 30 as they have accepted the invitation extended to them to attend the Union St. Institute. This meeting will be held at the home of Percy James on Thursday, Oct. 1.

The annual rally day service will be held in Queensville United church on Sunday next, Sept. 27.

The nation-wide communion day will be observed in Queensville United church on Sunday, Oct. 4. The three churches on this charge, Hope, Sharon and Queensville, will meet jointly in Queensville United church at 11 a.m. A special service with special music by the choir is being planned. Folks in Germany and a few other countries will not be granted the opportunity to join in this sacrament. It is a privilege that in this country there is a free right of religion and an effort should be made by all to join with the millions who will celebrate holy communion on the same day.

Quite a number from here were guests at the Cowan-White wedding in Keswick United church last Saturday afternoon. Mr. Allan Cowieson of Toronto spent last Sunday with his mother, Mrs. J. T. Cowieson.

Several from here attended anniversary services at Hope last Sunday.

YOUTH GROUP PLANS FALL, WINTER WORK

The Youth Group of the Salvation Army met on Friday at 8 p.m. at the Citadel. After a short worship period the group went to the home of Capt. F. W. Brightwell to plan the fall and winter meetings. Capt. Brightwell entertained the group with Salvation Army records on a radio-phone.

Betty Glenn was appointed as secretary to succeed Carl Woodruff as the business part of the meeting. The president, Zilpah Lavender, is carrying on for another month, after which a new president will take charge.

There will be no meeting next week owing to the canvassing for the Salvation Army Home Front Appeal.

A hard-time party will be held the last Friday in October. A prize will be given for the best hard-time costume.

The meeting closed by a radio-phone record of the Regent Hall band (Salvation Army), England.

APPEAL FOR CLOTHING FOR SUB. SURVIVORS

The season's first meeting of the Navy League, Newmarket branch, was held on Friday evening at H. M. Gladman's office.

Mrs. Herman Gilroy, convenor of the magazine and games committee, reported a splendid response from the citizens of Newmarket to the appeal for games and reading material.

Three heavy shipments have been made through the summer months. Recently over 300 pounds of magazines and games were shipped. J. L. Spillette reported the box for magazines in his store was filled to capacity. The box that was formerly in Wright's shoe store has been moved to Gilroy's men's furnishings.

The public is asked to continue the good work, as long winter nights are coming and the sailor boys need reading material.

Mrs. Norman Macleod, convenor of the ditty bag committee, reported that 85 ditty bags are being filled by the ladies of Newmarket, but there are still 15 more bags that require filling to meet the quota for this year. All must be shipped by Oct. 15 in order that they can be placed on board ship in time for Christmas.

UNDERTAKE TO SEND PARCELS TO NEAR 100

Representative of all the organizations in the church, Trinity United church war service committee met on Tuesday evening and decided to ask all the church organizations to co-operate in getting the material for nearly 100 parcels for the men and women from the church who are overseas or serving in Canada.

"At present there are 75 names on the mailing list but it is expected that during the next three months 20 or more names may be added to this list," Chairman Wesley Brooks stated.

"This will be a big task, to provide nearly 100 parcels," said Rev. Henry Cotton, the vice-chairman. "And every family in the church is asked to co-operate in bringing some Christmas cheer to the men and women who are offering their lives for our freedom."

Contributions of material for these parcels may be made through any organization in the church but in addition to materials a considerable amount of money will be needed for goods that have to be purchased and for postage. Contributions of money will be gladly received by L. P. Cane, Mrs. Wesley Brooks, Fred Cunningham and Rev. Henry Cotton.

which makes Pork FASTEST

YOU'RE naturally interested in raising your hogs fast and big in these days of good prices. Drop into our store and see right before your eyes that you can do the job with your grain and Purina Hog Chow.

In one pen we have a pig on straight grain. In the other we're raising his litter mate on grain and Hog Chow. See for yourself how much quicker this pig grows. On the basis of past experience, we predict that the "grain-plus-Hog Chow" pig will grow twice as fast as the one that gets grain alone. See 'em, folks, next time you're in town.

Let's Keep our Main St. Names Before the Public and Be Ready For Greater Business When the War Has Been Won

Main St., Newmarket, in the public service since time out of mind, has shown true patriotism in its merchandising since the war began. Our merchants have not tried to get people to make unnecessary or extravagant purchases, but in their advertising have tried to help the public buy wisely and economically. They have co-operated 100 percent with the government in encouraging people to save and lend, and not to buy more than their share of the goods available.

Their patriotism and good judgment, combined with the use of their local newspaper to keep their names and services before the public in a modest way, will be rewarded after the war. When there is extra business to get, they will share generously in it. People will remember the good advice and courteous service they received when goods were scarce.

The local newspaper, too, is trying to play its part. Through the hearty co-operation of the merchants in accepting a cash advertising system, The Era and Express has been able to give Main St. merchants a lower advertising rate probably than any weekly of comparable circulation in the province gives. The new rate treats all alike and all fairly. It becomes automatically lower according to the volume of advertising the merchant has used in the previous ten weeks and gives all merchants the same discount for cash the week of insertion.

By maintaining their advertising expenditures during the war, Newmarket merchants will not only keep their own names before the public, but they will be having a part in building their local newspaper circulation to greater and greater usefulness.
